SAFE CHAPTER ONE

The SAFE Association is dedicated to the preservation of human life. It provides a common meeting ground for the sharing of problems, ideas and information.

June 14, 2011

Airborne Systems Tour (www.airborne-sys.com)

Dinner with Guest Speaker Mr. Russell Nakaishi

Please join us for a full facility tour of Airborne Systems in Santa Ana followed by dinner at South Coast Winery and Restaurant and a presentation on WWII era military aviator protective flight gear.

SAFE Chapter One will meet at Airborne Systems W. Warner Avenue location first at 3pm. We will then tour that facility and move on to the W. Segerstrom location getting a behind the scenes look into the Space and Recovery Division of Airborne Systems.

Immediately following (approx 5pm) we will gather at the South Coast Winery and Restaurant for dinner and a presentation from Mr. Russell Nakaishi. Mr. Nakaishi is a collector of WWII era military flight aviator protective flight gear from countries including Japan, Germany, US, and UK.

His collection provides us a rare glimpse into the equipment, technology and thought behind the design and uses of protective gear for military crews. Gentex will also present current day US pilot helmets, communications and oxygen masks.

3PM Start:

Airborne Systems

3701 West Warner Ave.

Santa Ana

(714) 662-1400

Moving to

Space & Recovery Division

3000 W Segerstrom Ave
